COATED FABRICS BY DESIGN

Vinyl Coated Fabrics are sustainable because...

50% of PVC is made up of common salt!
Easily recyclable, low in non-renewable resources consumption, vinyl is energy-efficient to manufacture and offers long life-cycle solutions.

Coated Fabrics are the ethical, Vegan Leather, alternative to the energy-intensive, chemical tanning of animal hides.

Morbern is a leading Canadian manufacturer and innovator of decorative vinyl upholstery fabrics. Established in 1956, Morbern has over 50 years' experience supplying to the Contract, Hospitality, Healthcare and many more industries worldwide. Morbern Europe products are stocked in Amsterdam and sold through a wide distribution network.

Morbern's ethos is one of total commitment to the planet:

- Phthalate-free formulations
- Bio-based renewable ingredients derived from soya beans
- Low VOC (volatile organic compounds) water-based finishes
- 99% of the energy used in our plant is renewable
- 75% reduction in process water consumption since 2016
- REACH and RoHS compliant
- On target for ISO14001:2015 certification by end of 2020

THE FR-FREE REVOLUTION

To meet a growing demand for greener living and eco-friendly solutions, Morbern has introduced **Eden FFree**: free of phthalates, free of fire-resistant additives (yet EN1021 1&2 compliant) & free of anti-microbial additives..
